With deepest sympathy for the Phillips family...from the 50's the Phillips and Holt families spent much time together...either at the cottage or our farm...during which time Ken (the city kid) was always willing to pass along city stuff...it wasn't until the country girl showed him how to get a chicken to lay an egg, that he was most impressed. At that point, Ken being Ken said, can you do it again!!! Lots of fond memories of times spent together...Rest in peace... Sid & Joan Price and family
