

SHIRLEY MARIE DESCHENES

To Daniel, Luke and families please accept our condolences on Shirley's passing. Shirley and I were dialysis patients on the same shift three days a week and travelled via Red Cross together each morning and afternoon We shared many wonderful conversations sometimes family related, sometimes our shared health concerns - but always a report from Shirley on the success or failure of her beloved Maple Leafs. Perhaps in her memory the Leafs will have a successful playoff. May pleasant memories of Shirley bring you comfort at this difficult time. Rest well my friend,

Lyn Downer

My sincere condolences to all of Shirley's family and friends. I knew Shirley from dialysis. I knew her in passing as she was on the morning shift, and I was afternoon shift. I always sat there for a chat while she was waiting for her ride. I miss our chats. Rest in peace Shirley.

Our sincere condolences to Shirley's family and all those who loved her. Chats with Shirley were pure joy, especially those conversations about Shirley going to Elvis Presley's concert and then years later meeting Elvis in person. Shirley had a lovely manner and it was a real pleasure for John to take care of her property. It was lovely to know her and we will miss her.

I was shocked and saddened when I heard about Shirley's passing. She was a client of mine for many years and I will miss our talks. One of our favourite conversations was about Elvis! I certainly would have come to the service had I know. My condolences to her boys and grandchildren.
